

Try Our Consulting Special

Dial up the services you need: for as little as \$500 you can get three hours of our managing director's time and two hours of follow-up by our core staff

This will give you access to our expertise, knowledge, experience, and network of contacts. It will allow you to:

- Obtain guidance and advice
- Ask questions
- Bounce ideas off us
- Ask us to review something you've prepared to get suggestions for improvement

It will allow you to do advance planning, so you can:

- **Determine what steps need to be taken** to start work on an application, proposal, annual report, investor presentation, market analysis, feasibility study, design-build project, etc.
- **Identify what information needs to be assembled** and what requirements need to be met
- **Learn what is involved** so you can have everything ready to go to put your best effort forward in responding to a request for a proposal (RFP), applying for a grant, preparing a financial presentation, approaching an investor for funding, etc.

It also will allow you to:

- **Get a head start** on preparing for deadlines so you can avoid last minute rushes – and sacrifices of quality – because something takes longer to do, or because a key piece of information needed to address a requirement is missing – which catches you short with time running out

And it will allow us to:

- **Share our knowledge** of the inner workings of state and federal government grant, loan, loan guarantee, and incentive programs that can provide the funds you need to move forward
- **Explain some of the tricks we use** to grab attention, make your proposal/application/presentation stand out from the crowd, and draw strong connections between what RFP managers, investors, and grant-makers are looking for and what you are proposing.

This could easily save you days of time searching for just the right funding opportunity or right expert to provide the advice you need to complete your next step

Let us know how we can help you succeed
